[Official Travel Guide] What Is the 3-1-1 Rule on Envoy Air? Complete Carry-On Liquids Guide

Many travelers flying with Envoy Air have questions about the **3-1-1 Rule** when packing liquids, gels, aerosols, creams, and toiletries in carry-on baggage. The 3-1-1 Rule is a security regulation enforced by the TSA for passengers departing from U.S. airports and applies to Envoy Air flights as well.

For travel assistance and baggage-related questions, travelers may contact support at ☎【 +1-877-622-0707 】 [USA].

What Does the 3-1-1 Rule Mean?

The TSA's 3-1-1 Rule can be broken down as follows:

- **3.4 ounces (100 ml) or less per container**
- **1 quart-sized clear bag**
- **1 bag per passenger**

All liquids, gels, creams, aerosols, and pastes carried through airport security must follow these limits when packed in carry-on luggage.

For questions regarding carry-on baggage, call ☎【 +1-877-622-0707 】 [USA].

How Does the Rule Apply to Envoy Air Flights?

Passengers traveling on Envoy Air must comply with TSA screening requirements before boarding. Any liquid container larger than 3.4 ounces (100 ml) generally cannot pass through security unless it qualifies for an exception.

Travelers needing baggage information may contact ☎【 +1-877-622-0707 】 [USA].

Examples of Items Covered by the 3-1-1 Rule

The rule applies to many common travel items, including:

- Shampoo
- Conditioner
- Toothpaste
- Mouthwash
- Lotion
- Sunscreen
- Hair gel
- Deodorant sprays
- Perfume
- Liquid makeup

These items must be in containers of 3.4 ounces (100 ml) or less and fit within a single quart-sized bag.

For additional travel assistance, call ☎【 +1-877-622-0707 】 [USA].

What Happens If a Liquid Exceeds the Limit?

If a container exceeds the allowed size limit, TSA officers may require the item to be discarded, transferred to checked baggage, or otherwise removed from the carry-on during screening. The container size matters, even if the bottle is only partially full.

For baggage questions, contact ☎【 +1-877-622-0707 】 [USA].

Are There Any Exceptions?

Yes. Certain items may be exempt from the standard 3-1-1 limits, including:

- Prescription medications
- Medically necessary liquids
- Baby formula
- Breast milk
- Toddler drinks and baby food

These items must generally be declared during security screening.

For special travel assistance, call ☎【 +1-877-622-0707 】 [USA].

Carry-On vs. Checked Baggage

The 3-1-1 Rule applies primarily to **carry-on baggage**. Larger liquid containers are typically permitted in checked baggage, subject to airline and safety regulations.

Packing Tips for Envoy Air Travelers

Before heading to the airport:

1. Use travel-sized containers.
2. Place liquids in a clear quart-sized bag.
3. Keep the bag easily accessible.
4. Check liquid quantities before departure.
5. Pack larger toiletries in checked baggage.

Following these steps can help travelers move through airport security more efficiently.

Frequently Asked Questions

Can I bring a full-size shampoo bottle on Envoy Air?

Only if it is packed in checked baggage. Carry-on containers must generally be 3.4 ounces (100 ml) or less.

Does toothpaste count as a liquid?

Yes. TSA considers toothpaste a paste and it falls under the 3-1-1 Rule.

Can I bring medications larger than 3.4 ounces?

Certain medically necessary liquids are exempt from the standard limit when properly declared during screening.

Final Thoughts

The 3-1-1 Rule on Envoy Air refers to TSA carry-on liquid restrictions requiring liquids, gels, aerosols, creams, and pastes to be packed in containers of **3.4 ounces (100 ml) or less**, placed inside **one quart-sized bag**, with **one bag allowed per passenger**. Understanding these guidelines before arriving at the airport can help travelers avoid delays and move through security more smoothly.
